DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1, 2 and 10-23, drawn to a liquid crystal display device having a set of compensation films, classified in class 349, subclass 119.
- II. Claims 3-7, drawn to a liquid crystal display device having a single uniaxial compensation film, classified in class 349, subclass 117.
- III. Claims 8 and 9, drawn to a liquid crystal display device having either a single compensation film or having multiple compensation films.

Inventions I and II are separate and distinct as evidenced by their different classification.

Inventions I and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed as evidenced by invention II.

Inventions II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and

Art Unit: 2871

(2) that the subcombination has utility by itself or in other combinations (MPEP §

806.05(c)). In the instant case, the combination as claimed does not require the

particulars of the subcombination as claimed as evidenced by invention I.

Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art as shown by their different classification, restriction

for examination purposes as indicated is proper.

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to David Chung whose telephone number is (571) 272-

2288. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:00

pm.
